

About Us

●Corporate History

"DRETEC Co., Ltd. strives to provide convenience in all aspects of daily life. In addition to convenience, we have also focused on design, creating products that people will want to hold in their hands and continue to use.

Our company was established with kitchen timers as the main product.

At the time of the company's establishment, kitchen timers were not as familiar to households as they are today, but through our development and design capabilities, we have made them a product that every household should have at least one.

We have added numerous product categories to meet the needs of our times and customers feedback. We will continue to strive every day to reach our customers with better products."

●Management philosophy

Management Philosophy

Our management goal is to contribute to our customers and society through the provision of better lifestyle products, while fostering the happiness of all who support our company's growth.

Management Policy

1. We develop creative products that meet market needs.
2. Product development and production activities are carried out at the strongest bases from a global perspective.
3. We will achieve our business goals by prioritizing customer and employee's satisfaction.
4. We will comply with laws and regulations as a member of society.
5. We fulfill our quality assurance responsibilities and ensure product safety responsibilities.
6. Streamline logistics management and sell through the most advantageous channels.
7. We will strive to protect the environment and promote the activation and recycling of resources.

●Greetings

Our management goal is to contribute to our customers and society through the provision of better lifestyle products, while fostering the happiness of all who support our company's growth.

Dretec has been aiming to 『provide convenience to all aspects of daily life』 as a manufacturer of measuring equipments under the concept of 『Measurement (quantification, evaluation, mensuration)』 , since 1997.

Thanks to the positive feedback we have received from many customers, we have become an industrial leader in kitchen timers and cooking scales.

Currently, we design, develop, and sell body scales, body composition analyzers, pedometers, thermometers, thermo-hygrometers, medical devices such as non-contact thermometers, blood pressure meters, and pulse oximeters, we have also expanded our range of products to daily necessities such as electric kettles and IH cookers.

In 2019, the new head office was completed, and the relocation of head office functions was also completed.

Dretec will continue to develop products with excellent functions and designs, and

continuously strive to improve the quality of its services, aiming to be a company that customers can trust for many years to come.

Representative Director Goro Chikura
